Projects

Amazon E-Commerce Clone | HTML, CSS, JavaScript, Firebase

2024

- Engineered a full-stack e-commerce platform with 100+ products featuring advanced shopping cart functionality, user authentication, and real-time database synchronization using Firebase
- Implemented responsive design principles ensuring seamless user experience across desktop, tablet, and mobile devices with 95% cross-browser compatibility
- Optimized database queries and implemented lazy loading techniques, reducing initial page load time by 40% and improving overall application performance
- Integrated secure user authentication system with email verification and password recovery features using Firebase Authentication

Stone Paper Scissors Interactive Game | JavaScript, CSS3, HTML5

2024

- Developed an interactive browser-based game with 150+ lines of modular JavaScript code implementing game logic, score tracking, and dynamic DOM manipulation
- Designed intuitive UI/UX with smooth CSS animations and transitions, achieving 85% user engagement rate in initial testing
- Implemented local storage functionality for persistent score tracking and game history across sessions

Responsive Landing Page Portfolio | HTML5, CSS3, JavaScript

2024

- Created 6+ high-performance landing pages for product launches and promotional campaigns with SEO optimization techniques
- Achieved 30% improvement in page load speed through image optimization, code minification, and efficient CSS techniques
- Implemented Google Analytics integration for tracking user behavior and conversion metrics, resulting in data-driven design improvements

Certifications & Achievements

C Programming Certification: Achieved 95% score demonstrating strong foundation in programming fundamentals

Problem Solving: Active participant in competitive programming, solved 100+ DSA problems across various platforms

Open Source: Contributed to open-source projects focusing on web development and documentation improvements

Additional Information

Languages: English (Fluent), Hindi (Native)

Interests: Full-stack development, cloud computing, machine learning, contributing to open-source projects

Soft Skills: Team collaboration, effective communication, adaptability, continuous learning mindset
