Professional Summary

Software Development Engineer with a strong foundation in computer science, problem-solving, and secure software development. Experienced in backend logic, database security, and system-level analysis. Passionate about building reliable, scalable, and secure applications while following clean coding and best engineering practices.

Technical Skills

Programming Languages: Python

Databases: SQL, Database Security Principles

Cyber System Tools: Splunk (SIEM), Kali Linux, Nmap, Wireshark, Burp Suite

Core CS Concepts: Data Structures, Networking, Web Security, Operating Systems

Security Analysis: VAPT, Penetration Testing, Malware Analysis, Risk Assessment

Experience

Cyber Security Engineer

Oct 2022 – Present

Codevirus Security Pvt. Ltd. — Lucknow, Uttar Pradesh, India

- Conducted Vulnerability Assessment and Penetration Testing (VAPT) on web applications.
- Identified and mitigated security flaws such as SQL Injection and authentication issues.
- Analyzed network traffic and logs to detect anomalies and security threats.
- Collaborated with development teams to improve application security and system reliability.
- Strengthened understanding of secure coding practices relevant to software engineering.

Projects

Keylogger Security Analysis Project

2024

Python, System Monitoring

- Developed a keylogger for educational and cybersecurity learning purposes.
- Gained deep insights into system-level programming and OS event handling.
- Studied real-world attack vectors and implemented defensive detection strategies.
- Improved understanding of how malicious software operates and how to prevent it.

Education

Bachelor of Technology (B.Tech)

Computer Science and Engineering

CGPA: 7.5

Certifications

- Certified Ethical Hacking (2025) — Cisco Networking Academy

Leadership & Activities

- Leader of Cybersecurity, Aarambh Community — Mentored junior students.
- Leader at Google Developer Group (GDG) — Conducted cybersecurity training sessions.
- Cyber Volunteer at Naksh Foundation.

Soft Skills

Analytical Thinking — Problem Solving — Leadership — Team Collaboration — Adaptability — Communication
